

# Send Bulk WhatsApp Messages with Attachment and Document

As we know WhatsApp is the most popular global instant messaging app. Your customers are waiting for your business to go live on WhatsApp and bridge the distance. SAN Softwares is providing you an easier way to send Payment Reminders, Delivery Reminders, Birthday Reminder, Transactional Messages, Schedule Campaign, Bulk Upload, Attachments, Documents and updates to your customer through SanWA API.

## How it works

We will be providing you an API and GUI panel which will be connected to your Web WhatsApp. This will allow only 600 outgoing messages per hour. From same number, multiple users can send messages.
